

Our community has many UNAPPRORATE radio stations that I don't want my kids listening 2. They talk about sex, drinking, etc. & thats just the d.j.s not to mention the songs that say foul words and make promiscuity sound cool. 2 hear K-LOVE each day while w/my kids is a positive reinforcement 2 act&treat others with respect & dignity. If we lost KLOVE we wouldnt be able to listen to the radio together as a family. I believe that the service KLOVE provides is in the greatest public interest. please we love the music, message and djs on KLOVE, they serve us and the local community well!
